

Fruit Salad Trees

You are the proud new parent of a fruit salad tree!

Fruit Salad trees are grafted fruit trees in which each branch grows a different fruit. Your new tree will have 'Redhaven' peach, 'Red Gold' nectarine, 'Tilton' apricot, and 'Peach' plum. Stone fruits like hot, sunny, dry Okanagan conditions. If you live in coastal BC you need to plant your tree in the hottest, sunniest spot you have in the ground or in a large container.

To: _____

From: _____

We estimate that plants will be ready for pick up starting on April 27th, 2018.
Please call or email first to confirm.
